

# Oussama Kefi

Tunis, TN | 29220545 | me@kyrix.dev | [kyrix.dev](https://kyrix.dev)

## EDUCATION

University of Tunis El Manar  
*Licence degree in Business Intelligence*

**Manar, Tunis**  
*Graduation Date: Jun 2025*

## WORK EXPERIENCE

**AttoFlow Consulting**  
*Full Stack Developer - Internship*

**Tunis, Tunisia - Remote**  
*Jan 2025 - Jun 2025*

- Developed a full-stack calendar synchronization and scheduling platform using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**.
- Implemented real-time data synchronization and third-party service integration using **Google API** and **Microsoft Graph API**.
- Built and consumed **RESTful APIs** to handle data exchange between front-end and back-end components.
- Participated in **code reviews**, debugging, and performance optimization to maintain code quality and efficiency.

**Robotic Node LTD**  
*Full Stack Developer - Contract*

**London, UK - Remote**  
*Aug 2024 - Nov 2024*

- Revamped billing system architecture using **Laravel**, integrating payment gateway APIs and cloud management APIs to streamline transactions, enhance system reliability, and reduce errors by 30%.
- Optimized website performance by reducing page load time by 50%, resulting in increased organic traffic and improved search engine rankings.
- Implemented **CI/CD** pipelines to automate deployment processes, ensuring faster delivery and consistent code quality.

## PROJECT EXPERIENCE

**Ai Nexus**  
*Founder*

**Tunis, TN**  
*Jan 2023 - Present*

- Founded an AI-based platform that offers a centralized hub for **AI** resources where developers, researchers, and business professionals can find their needs in one place categorized, resulting in a 40% increase in productivity.
- Coded a cutting-edge web application utilizing **React** and **TailwindCSS** in the front end and **NodeJS** and **Express** in the back end, resulting in a responsive design with significantly improved user experience.

**Tunisian Top Gs**  
*Full Stack Developer*

**Tunis, TN**  
*Jan 2024 - Jun 2024*

- Developed an interactive learning platform for cryptocurrency enthusiasts utilizing **Django** framework, incorporating real-time market data from Cryptomarket Stats **API** to provide up-to-date information to users.
- Integrated chat functionality into the platform, boosting user interactions by 50% and enhancing community building.
- Utilized **AWS** technologies (S3, Kubernetes, and VM instances) to ensure high performance and a seamless user experience.

## LEADERSHIP EXPERIENCE

**Leo Club Tanit Sokra Omega**  
*Media Director*

**Tunisia, Tunis**  
*Jan 2021 - Present*

- Managed and led a team of 15 volunteers to conduct several humanitarian and financial awareness campaigns, that led to positive impact to our community.
